Nevermore

Her mother told her everyday: Never lose control Whatever then may come your way, a good girl takes it all And all the years she held her peace and followed every rule But then depression dried her heart And now she's screaming out

Nevermore - never we'll forget Nevermore - one day you'll regret

He used to be a follower And did what he was told Whatever they squeezed out of him A good man bears it all But one day he was in their way Did not fit in their plan They tried to kick him from the boat And now he's screaming out

Nevermore - never we'll forget Nevermore - one day you'll regret Nevermore! Never we'll forget, no!

Never we'll forget, no!

He used to be a follower And did what he was told Whatever they squeezed out of him A good man bears it all

Nevermore - never we'll forget Nevermore - one day you'll regret

Nevermore - never evermore Nevermore - never evermore Nevermore - never evermore Nevermore - never evermore

Rage
