

Paradigm Change

Rage

Hey brother, I see it in your eyes
The mirror never lies
The questions, all those whys
I don't believe you

Brother, that's ideology
You close your eyes on me
Your dogma, it won't be the answer

I've changed my mind

I'm on my way, no more astrayed
I seize the day, this is a paradigm change
No make believe, all I achieved
Will show the way, we need a paradigm change

Hey sister, the future lies unfold
No need to save the world
It never needed us to be alright

That's all I want

I'm on my way, no more astrayed
I seize the day, this is a paradigm change
No make believe, all I achieved
Will show the way, we need a paradigm change

Oh this time, we need a paradigm change

I'm on my way, no more astrayed
I seize the day, this is a paradigm change
No make believe, all I achieved
Will show the way, we need a paradigm change
