

# Septic Bite

Rage

Oh! I see those giant bones, they take me far away  
Oh! I pretend that I am back in the cretaceous age  
Feel the heat, the sun is burning on Gondwana Land  
See the giant Araucaria forests at right hand

Then suddenly I hear a distant roaring from the trees  
A giant T. Rex in full size, I guess he's on my trail

His jaws are coming over me  
And death is at his side  
The poison dripping from his teeth  
This is the septic bite  
He is the ruler of his age  
The killer of his time  
His poison kills the wounded prey  
This is the septic bite, yeah

Oh! His giant teeth, they have some gaps to gather meat  
Oh! That is rotting in his mouth for only germs to breed  
If he doesn't shatter you in just one single bite  
Then you're gonna die of fever from your wounds tonight

'Cause evolution has created most effective ways  
To feed its creatures anyway, at that time and today

His jaws are coming over me  
And death is at his side  
The poison dripping from his teeth  
This is the septic bite  
He is the ruler of his age  
The killer of his time  
His poison kills the wounded prey  
This is the septic bite, yeah

Then suddenly I hear a distant roaring from the trees  
A giant T.Rex in full size, I guess he's on my trail

His jaws are coming over me  
And death is at his side  
The poison dripping from his teeth  
This is the septic bite  
He is the ruler of his age  
The killer of his time  
His poison kills the wounded prey  
This is the septic bite

His jaws are coming over me...  
No! This is a septic bite, oh!

The septic bite
