Shadow World

Rage

Do you believe in fear of God?
Of punishment in pain and blood?

No matter what your prophet said
Whatever was, we made it dead
Denied to see the signs

Close your eyes, never learn
Welcome to this shadow world
Still it was our concern
Welcome to our shadow world
Life has gone from this Earth
Welcome to this shadow world
Still it was our concern
Welcome to our shadow world

We're eating more than we could chew
We swallow all, so sad but true

The painted green technology
A radiation death to be
Denied reality

Close your eyes, never learn
Welcome to this shadow world
Still it was our concern
Welcome to our shadow world
Life has gone from this Earth
Welcome to this shadow world
Still it was our concern
Welcome to our shadow world

Close your eyes, never learn
Welcome to this shadow world
Still it was our concern
Welcome to our shadow world

Close your eyes, never learn
Welcome to this shadow world
Still it was our concern
Welcome to our shadow world
Life has gone from this Earth
Welcome to this shadow world
Still it was our concern
Welcome to our shadow world
