

Shine a Light

Rage

For those forgotten souls
Who sleep under the bridge
You're not the only ones
That have to feed the rich

All those who die in wars
On battlefields of gold
You pay the highest price
'Cause all your lifes are sold

In the night there shine a light
For the blind may shine a light
When we die may shine a light on our way!
Shine a light...

And in the darkest hour
When everything seems lost
Then we need company
No matter what it costs

And when we can't afford
What life demands from us
We must accept the depths
Be wasted like surplus

In the night there shine a light
For the blind may shine a light
When we die may shine a light on our way!
Shine a light...

Stuck deep down in the hole
And no way to get out
We'll share what hope is left
And you'll be standing proud

In the night there shine a light
For the blind may shine a light
When we die may shine a light on our way!
Shine a light...
