

# Sword Made of Steel

Rage

You see the guys in spikes and leather  
That's what it means to me  
Just we, we rule the night together  
That's what is worth to be

When the day is gone  
The metal show is going on  
It takes your breath away  
Can't you see the only way

Together we are like a sword made of steel  
No one treats us wrong  
Together we are strong

The heat, the sweat sticks all together  
But still they battle on  
No fear, the power of the masses  
Every fight, it will be won

When the day is dawn  
The metal show is going on  
It takes your breath away  
Can't you see the only way

Together we are like a sword made of steel  
No one treats us wrong  
Together we are strong

Run to the limit  
No one can stop you, full speed  
Break up the old way  
Free will, not force's what you need

Power and loudness  
Give you the strength for the day  
We blow free your mind now  
Arm you to go your own way
