

The Flood

Rage

Since I can recall the days
We settled near the river bays
We have built our houses here
Feeling safe and without fear
Growing cities took the land
Asphalt, concrete, hand in hand
But then came the days of rain
It was pouring real sustained

On and on
Our world was gone

The deluge is here, we are drowning in the flood
Our end is near when the river brings the flood
Our primal fears, punishment by the gods
The deluge is here, we are drowning in the flood

Our place is washed away
Drowning in a giant hole
Many of us died that day
The survivors feel so small

On and on
Our world was gone

The deluge is here, we are drowning in the flood
Our end is near when the river brings the flood
Our primal fears, punishment by the gods
The deluge is here, we are drowning in the flood

The deluge is here, we are drowning in the flood
Our end is near when the river brings the flood
Our primal fears, punishment by the gods
The deluge is here, we are drowning in the flood
We are drowning in the flood
