

Time Waits for Noone

Rage

You don't like what you see
You don't know what it means and what it's like
You close your eyes
You're afraid that all you have learned has changed

Time waits for noone
You can't fix it if you try
Time waits for noone

You can join it for a little while

Once put into your brain
All the things of life got a special frame
But you forget that this world's got a different face each day

Time waits for noone
You can't fix it if you try
Time waits for noone

You can join it for a little while
You can join it till you die

What's this jungle noise
Long haired filthy boys
Sex before marriage
You don't believe in the pope

Time waits for noone
Time waits for noone
Time waits for noone
Time waits for noone
