

# Tomorrow

Rage

Tomorrow I'll keep the faith  
Rebuild my world anew, tomorrow

What is the secret to live without sorrow  
Let me be easy and light  
Can I get rid of this fear, all those worries  
That won't let me sleep at night

Open my eyes and step out of the darkness  
Lift up that weight, let me go  
Let me go

Tomorrow I'll keep the faith  
Rebuild my world anew, tomorrow  
Tomorrow I'm standing strong  
I'll face the rising sun, tomorrow

I'm unprepared to let go, just to leave it  
Stuck to this glue in my head  
Give me the power, the strengths to receive it  
Freedom, I'm longing for that

One day I will have to go, so I have to  
Make from tomorrow today

Tomorrow I'll keep the faith  
Rebuild my world anew, tomorrow  
Tomorrow I'm standing strong  
I'll face the rising sun, tomorrow

Tomorrow I'll keep the faith  
Rebuild my world anew, tomorrow  
Tomorrow I'm standing strong  
I'll face the rising sun, tomorrow

Tomorrow  
Rebuild my world anew, tomorrow  
Rebuild my world anew, tomorrow  
Let's start today
