

# Love

Raghav

Did you know that I couldn't go to sleep last night  
Only coz you were on my mind  
They tell me that the grass is so much greener  
When you looking from the other side

Couldn't help but satisfy my  
Curiosity, I should have left  
And I would have stopped but my heart just  
Got the best of me, I couldn't get

Away, it was too late  
Before I knew it I was in an unfamiliar place

Is this what they call love love love?  
Is this what they call love love love?  
Is this what all the fuss is about?  
If so let me out  
Is this what they call love love love?

You got me taking the long way to work today girl  
Just so I could talk to you a little longer  
Never thought that I would fall in love go figure  
I guess it's what you get when you search for answers, but I

Couldn't help but satisfy my  
Curiosity, I should have left  
And I would have stopped but my heart just  
Got the best of me, I couldn't get

Away, it was too late  
Before I knew it I was in an unfamiliar place

Is this what they call love love love?  
Is this what they call love love love?  
Is this what all the fuss is about?  
If so let me out  
Is this what they call love love love?

Don't get me wrong  
My feeling's so strong  
I'm just losing myself in you  
It's like I'm at war  
With a double edged sword  
I can't win with you

Oh baby

Is this what they call love love love?  
Is this what they call love love love?  
Is this what all the fuss is about?  
If so let me out  
Is this what they call love love love?

Is this what they call love?
