

No No

Raghav

No need to say a word
Yeah girl it's so clear
Ooh I can read through those tears
That man just stole you from me
So what you're 'bout to say is my biggest fear
Last thing I needed to hear is
That you no longer love me

So today before you do what you've got to do
Can I make one last request of you
I need just one more night without the truth
So please say...

No no, no no
Tell me how I got it wrong
No one could just come along
And take you from me
No no, no no
Tell me I'm losing my mind
Promise when you close your eyes
You're only dreaming of me

No need to say a word
Yeah girl it's so clear
Ooh I can read through those tears
That man just stole you from me
So what you're 'bout to say is my biggest fear
Last thing I needed to hear is
That you no longer love me

So today before you step up to break my heart
Before you start picking my world apart
Just know that I will never stop you
I've been where you are

Before you do what you've got to do
Can I make one last request of you
I need just one more night without the truth
So please say...

No no, no no
Tell me how I got it wrong
No one could just come along
And take you from me
No no, no no
Tell me I'm losing my mind
Promise when you close your eyes
You're only dreaming of me

We used to spend our nights just dreaming alone
I guess that those days are gone
And I've forever lost you
I never thought that you would hurt me like that
I guess there's no turning back
Ooh girl I'll always want you

So today before you step up to break my heart

Before you start picking my world apart
Just know that I will never stop you
I've been where you are

Before you do what you've got to do
Can I make one last request of you
I need just one more night without the truth
So please say...

No no, no no
Tell me how I got it wrong
No one could just come along
And take you from me
No no, no no
Tell me I'm losing my mind
Promise when you close your eyes
You're only dreaming of me

No no, no no
Tell me how I got it wrong
No one could just come along
And take you from me
No no, no no
Tell me I'm losing my mind
Promise when you close your eyes
You're only dreaming of me

Is akhari raat mat rulana sanam
Ek pyar ka raag gungunana sanam
Is akhari raat
Ek pyar ka raag
Is akhari raat
Ek pyar ka raag
Meri jaan...

No no, no no
Tell me how I got it wrong
No one could just come along
And take you from me
No no, no no
Tell me I'm losing my mind
Promise when you close your eyes
You're only dreaming of me

No no, no no
Tell me how I got it wrong
No one could just come along
And take you from me
No no, no no
Tell me I'm losing my mind
Promise when you close your eyes
You're only dreaming of me

No no, no no
Tell me how I got it wrong
No one could just come along
And take you from me
No no, no no
Tell me I'm losing my mind
Promise when you close your eyes
You're only dreaming of me
