

Circles

Rag'n'Bone Man

Nothing to keep me home
Stuck in a rhythm
Needed something to keep me from
Running in circles

Now every time I look away
I see your eyes
It's hard to wait another day
I'm so glad that you're mine

I try to find some peace of mind
So I can have the strength to leave
Now every time I say goodbye
The feeling brings me to my knees

Somehow (somehow)
Someway (someway)
It's got me feeling close to you

In this time (this time)
In this place (this place)
You have me feeling close to you

I'm running in circles
I'm running in circles
Got me running in circles
I'm running in circles again
Woah

In a circle be the only way that we move
Only one way from the A then we move to the B
Then we go right back to A
You cannot run in a circle when rocking with me
What the hell I come right back to you
Sometimes I question if you put a spell upon me
I cannot sit here with you
Let me get out in the race, let me try to compete
It's a mountain what am I to do
How should I keep up the pace when there's blood on my feet
All of this blood on the leaves
Dripping on me from the sky when I'm trying to sleep
Can't let a young brother dream
I got fire on me
Need a cover or sheet
Not to sleep just to put out the fire on me
Come respire on me
Come retire on me, cah

A circle be the only way that we move
Only one way from the A then we move to the B
Then we go right back to A
You cannot run in a circle when rocking with me
What the hell I come right back to you
Sometimes I question if you put a spell upon me
I cannot sit here with you
I cannot live without you but...
I'll try (I'll try)

I'll stay (I'll stay)
Cah I love feeling close to you
If you mine (if you mine)
I'll play (I'll play)
Circle back and toast with you

Running in circles (woah)
I'm running in circles again (woah)
Got me running in circles (running in circles)
I'm running in circles again (woah)

I'm running in circles again
Got me running in circles
I'm running in circles again
