(EMRLD)

Tell 'em, tell 'em a friend
To tell a friend, tell a friend
To tell a friend
Look

I keep a double cup tilted when I'm drinkin'
Caught 'em lackin', ain't these niggas 'posed to be on defense?
It feel good when you lay 'em down, tempurpedic
Headshot, I could rearrange what he thinkin'

Niggas be cappin' and I know it's confusin'
How you gon' bluff with the chop? You stupid
Smokin' on opps, this gas, pollution
Brodie up the tops and thots to boofin'
Why you fuckin' with them, they lame, they losin'
We hit 'em up, they sleep, they snoozin'
Beat on my chest, I'm rich, I'm woo'ing (Woo)
Shoutout my 'Rips, they straight, they coolin'
Yeah, I'm on court, but I just got a TEC
Mention me, you know I ball for the set
Ain't tryna talk, I'm just here for the sex
One in the head, better aim for the neck
How you a shooter and aim for the leg?
How you a shooter and shot him in the foot?
Niggas ain't nelson, niggas be shook
I know an opp who's chain got took

Tell 'em, tell a friend
To tell a friend
Ain't no wrestlin', bullets spur like peppermint
Tell a friend, to tell a friend
She said, "What's inside your cup?"
"Girl, that's medicine"

9 shots, who else?
Glock on my hip, like a new belt
I'm doing hits out the two seater
You get no respect, 'cept the two teachers
In the penthouse, I'm with two eaters
Fuck an email, I don't do features
Clip hanging out like a string bean
Know how I came, they call it the dream team
Shoot up they block, but I'm leavin' a clean scene

She unbuttonin' my pants like she eat jeans
Shoot for the stars, but this ain't no greenscreen
Fuck her 'til she take a nap, have a sweet dream
December, baby, so my heart is cold
But don't try to judge me off no horoscope
Got a lil' ooter and he still in school, he be flockin' shit and made the ho
nor roll
