

Belongs 2 You

Raheem DeV Vaughn

So I can love you to infinity
Or I can love you through eternity
Just know... there's nothin' I won't do
My heart... belongs to you

(The Colleagues)

You're always on my mind (My mind)
Always in my thoughts (My thoughts)
With every single beat (Poundin')
Always in my heart

Until we speak again
Until we kiss again
Until we laugh again
'Cause you are my best friend (Ay)

I'm alone, FaceTime (Ay)
Texting you day and night (Yeah)
I got options baby (Yeah)
But it don't feel right (No)
Pull up on me (Where, what, when?)
Baby when you're lonely

Girl, remember...
There is a heart that beats for you ('Cause there is)
'Cause there is a love I keep for you (Whoa, whoa)
And there ain't nothin' I won't do ('Cause my...)
'Cause my love belongs to you

(My love, my love, my love... my love)
'Cause my love belongs to you (Ooh)
(My love, my love, my love, my love)
My love baby, babe my love belongs to you)

So touch yourself to get there
I can't wait to wake you when I get there
For my lips to taste you when I get there
Screamin', baby tell me that you miss me (Don't pause)
Don't quit, don't tap out (Don't pause)
'Cause I saved myself for you (Oh yeah yeah)
You deserve it (Yeah yeah) (You deserve it)
'Cause you're worth it (Oh yeah yeah) ('Cause you're worth it)
So I'm givin' you, ooh, the key (Oh yeah yeah)
You upgrade me (Yeah yeah) (You upgrade me)
See you made me (Oh yeah yeah) (See you made me)
Be a man and leave behind (Ay)

I'm alone, FaceTime (Ay)
Texting you day and night (Yeah)
I got answers baby (Yeah)
But it don't feel right (No)
Pull up on me (On me baby) (Where, what, when?)
Baby when you're lonely

Girl, remember...

(My, my love, my, my, my my love)
'Cause my love belongs to you
(My, my love, my, my, my love
Belongs to you)

It's been eight Tuesdays since we last kissed, that's...
Two months without seein' my favorite smile crack across your lips, we...
Made it through what most would dismiss as...
Too much, too [?], too quick, but...
It was all us, the best me and the real you
Truth earned trust, my best view
Revealed through that seventh Tuesday when
You told me you loved me
And it was one week to your smile
Every night thinkin' of your love, your hugs and...
Facetime can keep us close but...
Ain't nothin' like your touch
You told me, I should see what's out there
And all I can see when I look around is who's not here
They tryin' to fake everything you came naturally with, but...
I adapt, I'm equipped, see
I'm focused on forever, what comes after the pics
So I can love you to infinity
Or I can love you through eternity
Just know... there's nothin' I won't do
My heart... belongs to you
