

Everything Baby

Raheem DeVaughn

Every time our lips collide
The feeling of love comes over you
Me too
(Lost) lost in a Venus flytrap

I'm telling you, baby
I'm telling you spread your legs (legs)
While I'm gripping just the way you said
Now we're falling off the bed, falling off the bed, girl
See first came [?] then came light
Something electric, something inside
A feeling of love and joy that I never felt before
You are

Everything, baby, that's what you are
Wonderful lady, that's what you are
Everything, everything, everything, everything, that's what you
are
Everything, everything, everything, everything, that's what you
are
Everything, baby, that's what you are
Wonderful lady, that's what you are
Everything, everything, everything, everything, that's what you
are
Everything, everything, everything, everything, that's what you
are

Somehow we [?] every time
Every time, every time I capsize
When I'm in, it feels like I'm baptized
Hypnotized, mesmerized
Your head-to-toe ingredients [?]
It lets me know you're heaven sent
I'll cherish every moment spent with you
Love ain't just a sentiment
It's a feeling [?]

Everything, baby, that's what you are
Wonderful lady, that's what you are
Everything, everything, everything, everything, that's what you
are
Everything, everything, everything, everything, that's what you
are
Everything, baby, that's what you are
Wonderful lady, that's what you are
Everything, everything, everything, everything, that's what you
are
Everything, everything, everything, everything, that's what you

are
