

Just right

Raheem DeVaughn

Your love is so good
I got to testify...Listen

You're some kind of royalty (Testify, testify)
I wanna give you all my loyalty (I gotta testify)
I wanna give you all my fidelity (Speak on it)
You brought a new man in me (you brought the new man, baby)

I feel God when you lie next to me
And you're still pretty even when you're angry (When you're mad at me)
You win my heart, came right in and tamed me
So glad I was chosen
(Your love is golden)

You are
(Just right, just right, just right) Just right
(Just right, just right) Your soul
You're so perfectly imperfect
Loving you is worth it
(Just right, just right, just right) Just right
(Just right, just right, just right)
Loving you's a testimony
You put something on me

(Your love is just right, baby)
You are just right, just right
Ooh hooo

You are a work of art
You are a new start, see you are the remedy
When you saved me from me
My piece of heaven (my piece of heaven)
My daily blessin (my daily blessin)
Eternal lessons
My favorite session (sex sessions)
My favorite lips to kiss
In the midnight hour, love-making in the shower
Butt-naked while you holler

You tamed my heart, came right in and tamed me
I'm so glad I was chosen
Your love, it is golden
Every little thing about you babe

You are
(Just right, just right, just right) Just right
(Just right, just right) Your soul
You're so perfectly imperfect
Loving you is worth it
(Just right, just right, just right) Just right
(Just right, just right, just right)
Loving you's a testimony
You put something on me

Your love is just right, baby

24/7 365 days of the year (three hundred & sixty five days of the year)

I'd be lost without you
I can't not even imagine not being by your side baby
Loving you is a love testimony
You put something on me

You are
(Just right, just right, just right) Just right
(Just right, just right) Your soul
You're so perfectly imperfect
Loving you is worth it
(Just right, just right, just right) Just right
(Just right, just right, just right)

You are
(Just right, just right, just right) Just right
(Just right, just right) Your soul
You're so perfectly imperfect
Loving you is worth it
(Just right, just right, just right) Just right
(Just right, just right, just right)
