

Love Sex Passion

Raheem DeV Vaughn

I wanna kiss you in your mouth
(Let me kiss you in your mouth)
Like survival is depending upon it
Let your body meet my body
Somewhere in between reality and a dream, yeah yeah
Sex, love and passion
This way-ay-ay-ay, yeah

Uh, yeah
Numb your legs, like novocaine
Smokin' good, in the back I'm playin' Coltrane
Turn you on, turn you up
And I dive deep and you soak sheets
(Tonight, I'm gonna give you)
(Lights off)

Love, sex, passion
(Wanna give you love, yeah, yeah)
It's time for love, sex, passion
(Love, sex, passion, once again it's time)
It's time to feel the thrust, goin' up your legs
(Feel the thrust, feel the thrill)
In so deep, nearly fallin' off the bed
It's time for love, sex, passion
(Lights on, lights off)

It's 4:15 in the AM
Tell me baby is it me or did you feel it too,
Like time on earth just stood still?
Inside you is electric and tantric
It turns me on to feel your heart beat rapid
Exactly what it should be, yes it was
Good sex, passion and love, babe

Uh, ride back like ASAP (A-S-A-P)
In the middle like bullseye
Speed it up like sixth gear (Go, go, go)
Burn the rubber like Goodyear
Bend you, twist you, fold ya
Turn you up like I'm supposed to
The way we doin' that (Tonight) night thing
(Tonight I'm givin' you the good type of)

Gonna give you love, sex, passion
(The good type of love, sex, passion, yeah yeah)
It's time for love, sex, passion
(It's time for love, it's time for love)
Turn around once again, it's time
It's time to feel the thrust, goin' up your legs
In so deep, nearly fallin' off the bed
It's time for love, sex, passion
(It's okay girl, I promise, I swear)
(Lights off, lights off)

Gonna give you love, sex, passion
(Gonna bring your body down, yeah)
It's time for love, sex, passion

(Sex and passion, yeah, ooh-wee)
It's time to feel the thrust, goin' up your legs
In so deep, nearly fallin' off the bed
It's time for love, sex, passion
(Lights off, lights off)

Uh, ride back like ASAP (A-S-A-P)
In the middle like bullseye
Speed it up like sixth gear (Go, go, go)
Burn the rubber like Goodyear
Bend you, twist you, fold ya
Turn you up like I'm supposed to
The way we doin' that night thing
(Sex, passion)

Can you stay a little longer?
Hope you're not in a rush to go
I was feelin' maybe we could it to the shower
(Yeah love, sex, your passion)
The bed is so unconventional
The thing is that we've already been there, for hours
(Gonna give you love, sex, passion)
Not to be cliché, but the neighbors
They know your name and mine too
(It's time for love, sex, passion)
Who cares what we do in the privacy of our own home
But oh, if these walls could talk, the things that they would say
(It's time to feel the thrust, goin' up your legs)
The thrust, the thrill
(In so deep, nearly fallin' off the bed)
The love, the sex, the passion
(It's time for love, sex, passion)
