

# Make A Baby

Raheem DeVaughn

How about you and I make a baby?  
How about you and I make a baby?  
How about you and I make a baby?  
How about you and I make a baby?

I'm ready babe I, it's time  
Now that I know your status  
You know mine  
Well, I'm trying to play the CD close  
But tonight, tonight I plan to fertilize  
Overstay, tonight will bring your destiny  
Tonight will bring forth family  
Baby so

How about you and I make a baby?  
I want you to love my body  
How about you and I make a baby?  
How about a baby?  
How about you and I make a baby?  
How about you and I make a baby?

Just think we've made  
A boy with swagger like mine  
And to be sure let's go all night  
And if it's a girl like her mama, she gonna be so fine  
And you're the best sex you've ever had  
And I won't be no dead beat dad shoot  
Tonight we even might make 2  
Twenty-two  
Tonight I thank my majesty  
For blessing me with you

How about you and I make a baby?  
I want you to love my body  
How about you and I make a baby?  
How about a baby?  
How about you and I make a baby?  
I said about you baby  
How about you and I make a baby?

I wanna love your body  
I wanna love your feet  
I wanna feed you all night long  
F in the morning  
And when you have the wildest craving  
I'm ready, I want you down baby

How about you and I make a baby?  
How about you and I make a baby?  
How about you and I make a baby?  
Oh yeah, yeah  
How about you and I make a baby?  
Tell me baby

If it's a boy with swagger like mine  
It's a girl like her mama, she gonna be so fine  
Say you're ready to make a baby

How about you and I make a baby?  
Say that you're ready  
How about you and I make a baby?
