

## Soul Mate

Raheem DeV Vaughn

It's a beautiful day  
Almost as beautiful as you  
Today my dreams come true  
My soul mate

Never knew a lady like you existed on earth  
When we met on my life I fell in love  
So I am here with you on this day to say  
To form a love  
Yes you may have my heart

You're my soul mate  
With this ring I pledge to be with you  
(2x)

So glad you are my lady my one and only lady  
You make me feel that I have the world baby girl  
My life without you is unheard  
Girl I give you my world  
For all the days of our lives  
You will be, you will be yeah yeah

You're my soul mate  
With this ring I pledge to be with you  
(2x)

As I stand here today before you  
In the name of love  
I vow to respect you, protect you, love, cherish  
For all the days of both our lives  
And beyond the day  
Beyond the day that the sun goes down
