

# Walk With Me

Raheem DeVaughn

I'm just a man.. makes mistakes  
I do all I can to walk.. straight  
I heard some thing  
I hurt some women in the past  
But now I am wiser  
I am looking for my better half  
I got a great job  
I work hard on my job  
I got a relationship with God  
Response and intellect  
I got all the things money can buy  
But somehow I feel empty inside  
See.. only one without that special girl relationship is paradise

I need someone to love me when I am not so strong  
I need someone to right me when I am going wrong  
I need someone to hear me when the music  
Someone to laugh and talk to me  
Someone to run to  
Take my hand  
When my spirit gets lonely  
I need you to hear me  
Walk with me

When I am trying monogamy temptation chasing me  
It's hurt sometimes to pretend that I am blind  
When I can use some company  
From my after your block  
To my show to next stop  
Oh I wish sometimes I could have misses right  
I don't know who you are  
But I hope that you are listening  
Cause I can't wait to show you off in public scene  
Say you love me when I am down  
Say you love me when I am grey  
Now.. patiently I'll wait  
If you think that you are that woman

I'm not just gonna take you anywhere  
Promise I will take you where love will be waiting  
I'm not gonna take this love fall apart  
Promise you got my back  
Promise I will give you everything  
Cause you are worth all this things  
I'll search high and low for you
