

What It Feels Like

Raheem DeV Vaughn

Ooh
If this is what heaven feels like
Listen
Ooh
I'm gonna be
If this is what lovin' life feels like
Ooh (Promise, I understand)

You make me so happy like
I wanna take you out to eat
You make me so happy like
I just lay here and watch you sleep
You make me so happy like
I wanna bring you breakfast in bed
You make me so happy like
Like a daydream, I can't get you out of my head (Well)

You make me so happy like
I'm giving you a key to my car (Giving you a key to my condo)
You make me so happy like
But his or hers don't match with no car note
You make me so happy like
That I be smiling when I'm sleeping
You make me so happy like
Seven days of the week, baby, lovin' you now

If this is what heaven feels like (Hey hey hey, on no)
I'm gonna be here, and I'm gonna stay here
Lovin' you all night
And this is what lovin' life feels like
I'm gonna be here, and I'm gonna stay here
Lovin' you all night

You make me so happy like
I could put a ring on you
So happy and so beautiful
So you can be the queen on it
Hey, hey
You make me so happy like
I'd tell a preacher "I do"
You make me so happy like
I could do the honeymoon too, yeah
Lovin' you all night

If this is what heaven feels like (Heaven, yeah)
I'm gonna be here, and I'm gonna stay here
Lovin' you all night
If this is what lovin' life feels like (Baby, upon us)
I'm gonna be here, and I'm gonna stay here
Lovin' you all night

There ain't no ring I can't buy
Ain't no car I can't drive
In the bed we can lay
Ain't no place we can go
In the livin' that I know
Too much, I love you

See, lady, when I was younger (Younger)
I was easily led astray
The way you whip your love on me
I never wanna give it away
(Give your love away)
I love you, baby

If this is what heaven feels like (And I wanna be)
I'm gonna be here (Yeah), and I'm gonna stay here (Right here, yeah)
If this is what lovin' life feels like (I promise)
Yeah I'm gonna be here (Yeah), and I'm gonna stay right here
Lovin' you all night

If this is what heaven feels like (To the sounds, girl, of my love)
I'm gonna be here (Yeah), and I'm gonna stay right here
Lovin' you all night
If this is what lovin' life feels like (Let's make it, baby)
I'm gonna be here (Yeah), and I'm gonna stay here
Lovin' you all night

If this is what heaven feels like
(All night, you all night, you all night, you all night, and you)
I'm gonna be here (Yeah), and I'm gonna stay right here
Lovin' you all night
If this is what lovin' life feels like
I'm gonna be here (Yeah), and I'm gonna stay right here
Lovin' you all night, yeah

If this is what heaven feels like
Oh (Yeah)
