

# Baby

Rahmania Astrini

Baby  
I've been thinking lately  
Why do I go crazy?  
Having you near me

Maybe  
You're the one for me  
But things won't be easy  
Would you stay for me?

But I know as time goes by  
With you by my side  
Wondering how could we fall deep inside

Tell me, 'cause I can't help think that  
Everything is gonna change  
Without you here I'm not the same  
Don't wanna give up on us  
I know we can find a way  
All you gotta do is stay with me

Oh baby, we can make it right  
If you would say what's on your mind  
There's a way out of here, I believe

But as time goes by, I realize  
You're slowly drifting, it kills me inside

Tell me, 'cause I can't help think that  
Everything is gonna change  
Without you here I'm not the same  
Don't wanna give up on us  
I know we can find a way  
All you gotta do is stay with me

So far apart  
Don't know where to start  
Finding my way to your heart

Tell me, 'cause I can't help think that  
Everything is gonna change  
Without you here I'm not the same  
Don't wanna give up on us  
(I know we can find a way) I know we can find a way  
(I know we can find a way) I know we can find a way  
All you gotta do is stay with me  
Stay with me
