

Finally Found You

Rahmania Astrini

You are my sweetest devotion
My deepest emotion, hmm...
The sunshine after the storm
The colors that I adore
I got you lover

You take away the pain
You wash away the rain
Can't help but have you inside my brain
All day, all night, all week
Oh, I just want you near

Oh, love
How your hands fit in mine
Let all the stories behind
Glad that now I finally found
You, you, you
Only you, you, you
You in my heart
The one I desire
Is you...
Oh darling, it's...

Something about you makes me happy
All the things you do drives me crazy
Oh, baby
The stars be shining so bright
But not brighter than you
Your smile, your touch
Your candy like lips
The things I would always miss from you
Oh darling, from you

Oh, love
How your hands fit in mine
Let all the stories behind
Glad that now I finally found
You, you, you
Only you, you, you
You in my heart
The one I desire
Is you...

Oh darling, it's love, I know
With you I hope it's love
Through all the pain
And all the rain
Glad that I found you
Glad that I found home
Glad that you're my home
