

Stay A While

Rahsaan Patterson

The mere sight of your face

Brings to me joy

Unexplainable

Wanna have it this way

Till the dawning breaks

Right outside my front door

There's nothing better

There's nothing more true

Than you and I

Together in tune

Don't break it down

Don't tear it up

'Cause baby it's all around you

So won't you stay awhile

I need you to stay awhile

There's no way you can leave me now

I need you to stay awhile

Tell me you'll stay awhile

So won't you just stay awhile

From the very first day

You know that I've been watchin'

Eyeing your every move

And with my heart I can say

That forever and on.....

I'll give myself to you

There's nothing better

There's nothing more true

Than you and I
Together in tune
Don't break it down
Don't tear it up
'Cause baby it's all around you
So won't you stay awhile

I need you to stay awhile
There's no way you can leave me now
I need you to stay awhile
Tell me you'll stay awhile
So won't you just stay awhile

I can't see tomorrow with out you
Because I would never be able to make it through
No, never without you
So why don't you stay
