

Causing Love

Rain

I see you in the sunlight
A little more towards you I go
Stacking up my hopes as high as a billionaire's bankroll
I'm shaking from the inside
And seeing every DarkStar explode
Tell me what this feeling is, 'cause Heaven only knows

We're causing love
Oh oh oh oh oh
Can you feel the love
It's all we wanna do
Make it any time we want
It's coming, coming, coming around us now
We're causing love
It's all we wanna do

A picture frames in my mind
I'm posing in this black and night photo
Flashing lens undress me to the nines before you go
I'm moving from the inside
A piece of me escapes to your show
Tell me what this feeling is, cause Heaven only knows

We're causing love
Oh oh oh oh oh
Can you feel the love
It's all we wanna do
Make it any time we want
It's coming, coming, coming around us now
We're causing love
It's all we wanna do

I got my hair pulled up like I'm ready now
All I wanna do
I got my mind made up from the inside out
All I wanna do
Each and every piece of me is coming free
And you're reaching me

We're causing love
Oh oh oh oh oh
Can you feel the love
It's all we wanna do
Make it any time we want
It's coming, coming, coming around us now
We're causing love
It's all we wanna do

We're causing love...
It's coming around again
We're causing love
