

Now listen to me, I wanna say something  
This isn't war, this is the end of time  
Reach for the secret and lay your armour down  
Before the sun is gone again

Love comes once or twice  
And only when we fight the good fight  
Keep on marching, turning right

Now we're reborn, what will we do  
Will we become the leaves beneath our feet  
The dust under the groove  
Will I still fall, now I found you  
Oh like the leaves upon the trees  
Can I be evergreen for you

We are evergreen  
We are evergreen

Now keep it turning, there's always one more sky  
One day the stars will set you all on fire  
We are the keepers, the power's in our hands  
Wash all your anger to the ground

Love comes once or twice  
And only when we fight the good fight  
Keep on marching, turning right

Now we're reborn, what will we do  
Will we become the leaves beneath our feet  
The dust under the groove  
Will I still fall, now I found you  
Oh like the leaves upon the trees  
Can I be evergreen for you

We are evergreen  
We are evergreen

We are the chosen, we defy  
Our tears fall from the sky  
Our flame is never gonna die, oh  
We are the chosen, we're the ones  
Our tears fall from the sky  
Our flame is never gonna die

Now we're reborn, what will we do  
Will we become the leaves beneath our feet  
The dust under the groove  
Will I still fall, now I found you  
Oh, like the leaves upon the trees  
Can I be evergreen for you

We are evergreen  
We are evergreen  
We are evergreen  
We are evergreen
