

Fall From The Dark

Rain

Pieces of my love
Lost in the night
Do we ever get it right?

Droplets of your faith
Secrets and lies
Shadowed by the light

Oh lift me up
I feel the sky
It's taking over taking flight
I need you here among the stars
So promise me
You'll catch my heart
If I fall from the dark

If I fall from the dark

So promise me
You'll catch my heart
If I fall from the dark

If I fall from the dark
If I fall from the dark

So promise me
You'll catch my heart
If I fall from the dark

Oh lift me up
I feel the sky
It's taking over taking flight
I need you here among the stars
So promise me
You'll catch my heart
If I fall from the dark

If I fall from the dark

So promise me
You'll catch my heart
If I fall from the dark

If I fall from the dark
If I fall from the dark

So promise me
You'll catch my heart
If I fall from the dark

If I fall from the dark
