

Here I Rise

Raign

Yeah yeah

Where is my savior? Are the stars aligned?
Pray for mother nature, oh she's running out of time
Baby you could love me forever
If heaven's gonna save ya there is only one more night

Save me from a thousand heartaches
Hold me till the end
Take the dark before the dawn breaks
Won't fall down again

Here I rise
From a star on hallowed ground
Running from the future
Till I find my way back out
Heaven is a place I ride
Only with you by my side
Here I rise
From a star on hallowed ground
From a star on hallowed ground

Bury my feelings six feet under dust
Haunted by the moments so we go beyond the sun

Take the dark before the dawn breaks
Won't fall down again

Here I rise
From a star on hallowed ground
Running from the future
Till I find my way back out
Heaven is a place I ride
Only with you by my side
Here I rise
From a star on hallowed ground
From a star on hallowed ground

Stay with me, don't leave me here
Wrap your arms around my fears
Calling angels with our tears
Yeah yeah, yeah yeah

Here I rise
From a star on hallowed ground
Running from the future
Till I find my way back out
Heaven is a place I ride
Only with you by my side
Here I rise
From a star on hallowed ground
From a star on hallowed ground

From a star on hallowed ground
