

Raise The Dead

Rain

Love don't break the light
Trying to find my way again
Grey stars on the rise
Navigate me on the mend
The clock moves out of time
Wading through the moments we left
I trip to feel alive
And die to forget

Lift me up and I feel lighter
I'm living in a dream
Wake me up if everything changes
And nothing's what it seems

Come raise the dead
I'm dreaming of the end
Hallucinate the tables are turning and life
Was everything you said
Come raise the dead
I'm leaning on the edge
Illuminate the way to my heart
It's twisting on a thread
Come raise the dead

Breath me back inside
I've been in the water too long
I soaked in all the cries
Until I was gone

Lift me up and I feel lighter
I'm living in a dream
Wake me up if everything changes
And nothing's what it seems

Come raise the dead
I'm dreaming of the end
Hallucinate the tables are turning and life
Was everything you said
Come raise the dead
I'm leaning on the edge
Illuminate the way to my heart
It's twisting on a thread
Come raise the dead

Lift me up and I feel lighter
Lift me up and I feel lighter

Come raise the dead
I'm dreaming of the end
Hallucinate the tables are turning and life
Was everything you said
Come raise the dead
I'm leaning on the edge
Illuminate the way to my heart
It's twisting on a thread
Come raise the dead
