

Spaceman

Rain

Pungent smells, they consolate my hope
Beyond the black horizon, tryin' to take control
See my girl, she shivers in her bones
The sun and zenith rising, tryin' to take us all

There's a fire between us
So where is your God?
There's a fire between us
I can't get off the carousel
I can't get off the carousel
I can't get off the carousel
I can't get off this world

Spaceman
I always wanted you to go
Into space, man
Intergalactic Christ
Spaceman
I always wanted you to go
Into space, man

There's a fire between us
So where is your God?
There's a fire between us
I can't get off the carousel
I can't get off the carousel
I can't get off the carousel
I can't get off this world
(I can't get off this world)

Spaceman
I always wanted you to go
Into space, man
Intergalactic Christ
Spaceman
I always wanted you to go
Into space, man
Yeah
