

Walls

Rain

Walls, we don't have to far to climb
We don't care bout falling out of love
All we have is borrowed time
Breaking down our walls

Walls, see the future from this high
Jumping in its out of our control
Letting go of what's behind
Breaking down our walls

Breaking down our walls

Walls, hands together round the world,
Joining up to build the here and now
Stand up we agree to fall in love, love
Breaking down our walls

Walls, see the future from this high
Jumping in its out of our control
Letting go of what's behind
Breaking down our walls

Walls, we don't have to far to climb
We don't care bout falling out of love
All we have is borrowed time
Breaking down our walls

Breaking down our walls

We stand in line
Hands together we go round the world
Joining up to build the here and now
Stand up get your feet up on our walls, walls
Hands up, hands up
Hands up, hands up

Breaking down our walls

Hands up, hands up

Breaking down our walls
