

## Said What You Mean

Railroad Earth

In still water we found our own graves  
Fell in the flames

Walked our own pace  
Your loving's been a blessing to me  
And the blessings returned  
And all that you see  
Hell riders out on the hill  
Their shadows upon us  
And they follow us still  
Don't let them into your heart  
We'll go about our days and keep living

Love

This loving is free  
I'm dreaming with me  
We'll make it our heart

Love

Its river runs slow  
But it'll go where we go  
And follow it on  
We'll follow it on  
Dim preachers  
preaching their wars rattling soil  
I can't even hear anymore  
To believe what they say, is believing

Love

This loving is free  
Come make it with me  
We'll make it our home

Love

Its river runs slow  
It'll go where we go  
And follow it on  
I don't even care anymore  
If I sleep in a bed or  
I sleep on the floor  
I'll roll over and I know where you are  
I believe in our love and  
I trust in your heart

Love

This loving is free  
Come make it with me  
We'll call it our home

Lovey

Its river runs slow  
It'll go where we go  
And follow it on

Love

This loving is free  
Come dream it with me  
We'll make it our own

Love

Its river runs slow  
Lets go where we go  
We'll call it our home

Love

This loving is free

Come make it with me  
We'll call it our home  
We'll call it our home
