

Best Man

Rainbow Kitten Surprise

Some nights I turn in my tongue
I see you burning, I'm in
Fire and there's no escaping
Running through streets with my friends
Take all our money, we're out
It gets so loud and I'm down
I see you like a diamond
Shining, it's how you wear it

Lights (Lights)
Got me level
Hype (Hype)
We're going extra
It's time (It's time)
So cue the next one
Ready for whatever

You better put your best man on it, yeah
Better than the best, I promise, yeah
Better be yes, I'll be there, I promise, yeah
You know I love you, baby
You know I love you, baby
You know I love you, baby

Some days I want nobody
To know how heavy it be
I know the cure, remedy
I kick it, just you and me
We're tryin' to get it poppin'
Throw parties where we're rockin'
Nobody's gonna stop me
I'm waving high at my team

Lights (Lights)
Got me level
Hype (Hype)
We're going extra
It's time (It's time)
So cue the next one
Ready for whatever

You better put your best man on it, yeah
Better than the best, I promise, yeah
Better be yes, I'll be there, I promise, yeah
You know I love you, baby

Take it just a little
Flash of Venus envy
You called so they sent me
To show you how it can be
Coming in, I'm IT
Landed like I'm ET
Called so they sent me
To show you how it can be

Lights (Lights)
Got me level

Hype (Hype)
We're going extra
It's time (It's time)
So cue the next one
Ready for whatever

You better put your best man on it, yeah
Better than the best, I promise, yeah
Better be yes, I'll be there, I promise, yeah
You know I love you, baby
You know I love you, baby
You know I love you, baby
