

LOL

Rainbow Kitten Surprise

I want you but hon
We've been through enough
There's so much of us
Is there no love?

Like my heart hurts
Like my jaw hurts
Like my job hurts
And I'm talking to a wall

Hello operator, can I call you later?
You know shit's been crazy 'round here
Fingertips are shaking, playing Operation
Tag you in the basement I'm in

I can keep on running 'til I'm running out of road
Just wait you keep on asking me
When are we going home
I'm tryna find my soul, I can't tell you if I'm close
Move a little closer when I needed you the most

Cause it's bad times honey
And there's good time money
And it's laugh out loud
When this shit's not funny

I just feel so clueless
Calling you to prove me wrong
Just be honest on

Smoke 'em if we got 'em
Let me know if it's a problem
I can tell you what pill will be the hardest one to swallow

We can hang around smiles
Off of seventh avenue
Yeah we're making bad calls
Cause we ain't got shit to do
I want you but damn
I can't hold your hand
I can't be your friend
Man

I don't need a fan
I am who I am
I'm cool as the goddamn sea

Hello operator, shit's been crazy around me

I can keep on running 'til I'm running out of road
Just wait you keep on asking me
When are we going home
I'm tryna find my soul, I can't tell you if I'm close
Move a little closer when I needed you the most

Cause it's bad times honey
And there's good time money

And it's laugh out loud
When this shit's not funny

I just feel so clueless
Calling you to prove me wrong
Just be honest on
(Please, please)

Like my heart hurts
Like my jaw hurts
Like my job hurts
When I'm talking to a wall

Like my heart hurts
Like my jaw hurts
Like my jobs hurts
Are you listening at all?

Hello Operator, where are you located?
You know shit's been crazy 'round here
