

## No Occasion

### Rainbow Kitten Surprise

Wrapping up your touch for a deep freezer  
Trying to stay in touch, you can't reach me, uh  
Tell me in the dark, you complete me, uh  
Still I see the sunset peaking

How many fools does it take to switch a light out?  
How many more mistakes before you freak out?  
Trying to keep the pace but we're running out of time now  
In and out of sync and I feel it going down

Wake me up, I'm shaking  
Call me pretty please, no occasion  
That's my boy and he's making an oasis  
Popping bottles, no occasion  
Thinking you could save me

Thinking you could save me, baby  
Thinking you could save me  
Thinking you could save me, baby  
Thinking you could save me

What's worse is the heartbreak, you tell me so often  
I'm melting regardless, is that where it got us?  
Know you're so proud of me when it counts but  
I'm falling in pieces to the river beneath us

How many fools does it take to switch a light out?  
How many more mistakes before you freak out?  
Trying to keep the pace but we're running out of time now  
In and out of sync and I feel it going down

Wake me up, I'm shaking  
Call me pretty please, no occasion  
That's my boy and he's making an oasis  
Popping bottles, no occasion  
Thinking you could save me

Thinking you could save me, baby  
Thinking you could save me  
Thinking you could save me, baby  
Thinking you could save me  
Thinking you could save me, baby  
Thinking you could save me  
Thinking you could save me, baby  
Thinking you could save me
