Rainbow

Can't say something if the words ain't there What you trying to do Money can't buy me out of trouble I'm in I've been messing with the likes of you Been so long since I left my home Looks like I lost my way Tried so hard just to make it work You just turn around and walk away Something's got to give, I ain't gonna leave Time to dig down deep If you wanna get out of this town alive You gotta stand and fight So infuriating the way you twist my words I know you got your problems, it seems every day That they're getting much worse I hear you screaming for attention You say your life's a mess Something else to cry about Just get on with it Something's got to give, I ain't gonna leave Time to dig down deep If you wanna get out of this town alive You gotta stand and fight
