

Trust Me

Rains

We wait for it
We wait for it
We wait for it
To come into
Our lives
And see the sunshine in every bodies eyes
From nervous and fear to excitement my dear
I want you to know
Everything's gonna be alright
Everything's gonna be alright

Soon you'll wonder is he still in love with me
Please just trust me just trust me

We wait for you
We wait for you
We wait for you to
Come in to our lives
And look the first time
In every bodies eyes
From nervous and fear to excitement my dear
I want you to know
Everything's gonna be alright
Everything's gonna be alright

We wait for it
We wait for it
We wait for you
To come into
Our lives

We wait for you

Soon you'll wonder
Are they really listening
Please just trust me
Just trust me
Soon you'll wonder
Are they really there for me
