Whether or Not

Rains

As I wait for the night time
So everything will fade
I think of all you took away
As I look through a lifetime
Decisions that were made
I think of all you gave away

And whether or not we meet again
Just know, I did my best for you
And whether or not we speak again
And whether or not we'll be again
Please know, I wasn't out to hurt you
No we'll never be again

As I look through our past crimes
The memories we saved
I think they drove us to the grave
While I look to a new life
The thoughts of you will fade
I push them all to yesterday

And whether or not we meet again
Just know, I did my best for you
And whether or not we speak again
I'll know, I wasn't made for you
And whether or not we'll be again
Please know, I wasn't out to hurt you
And whether or not or not we love again
No we'll never no we'll never ever be again

You always take the wrong way down
We always take the, long way around
There's nothing left to figure out
It's time to make our last move now

And whether or not we meet again
Just know, I did my best for you
And whether or not we speak again
I'll know, I wasn't made for you
And whether or not we'll be again
Please know, I wasn't out to hurt you
And whether or not or not we love again
No we'll never no we'll never ever be again

No we'll never be again
No we'll never be again
No we'll never be again
No we'll never be again
No we'll never be again
