

Monumental

Raised Fist

To make a contribution as you will see
Is going to break the illusion as it turned out to be
Reunite the scene if you know what I mean
From fat and thin to the ones with colored skin.

To get your attention and to reach your heart
We'll need a big convention like this for a start
Do the dance, Do the dance, Do the dance now
Do the dance now, ready to bow.

What I see is a disconnect, What I see is us getting wrecked
Our everyday life is about our ride being rebels nation wide.
This is a big monument and we are the conservative base
If you think that you're the movement you've lost the race

I know by looking into your eyes.
I rather guess than make up big lies
This is more than I can take
This is just a major mistake

Do you know what your up against, We never go to sleep
You're just a lifelong pretender we're expensive but you'll go
cheap.

To make a contribution as you will see
Is going to break the illusion as it turned out to be
To get your attention and to reach your heart
We'll need a big convention like this for a start

What I see is a disconnect, What I see is us getting wrecked
Our everyday life is about our ride being rebels nation wide.
This is a big monument and we are the conservative base
If you think that you're the movement you've lost the race

I know by looking into your eyes.
I rather guess than make up big lies
This is more than I can take
This is just a major mistake
