Reduction of Hate

Raised Fist

When... The light goes on
I'll stand there watching you
With anger burning in my eyes
And when the light goes off
The breath of mine is the only sound

So much of everything
Is covering up my face
I'll step up to you and leave you without a trace
Today's today
Are you afraid
Afraid
To climb out of that shell

Stand tall, fear nothing, keep the faith
I'll walk with my head clean from this
That's the way to reduction of hate
Forgiveness is not far from that

Forgiveness
Hasn't been in my mind for years
Although I've tried
I've tried between all the tears
Your actions have cause to much pain
To be forgotten
I just gonna leave your filthy life
Of drain down the bottom

Stand tall, fear nothing, keep the faith
I'll walk with my head clean from this
That's the way to reduction of hate
Forgiveness is not far from that

Forgiveness
Hasn't been in my mind for years
Although I've tried
I've tried between all the tears
Just to leave this life of mine
Start all over just to be another kind

So much of everything is covering up my face
I'll step up to you and leave you without a fucking trace
Today is today
Are you afraid
Are you afraid to climb out of that shell

Stand tall, fear nothing, keep the faith
I'll walk with my head clean from this
That's the way to reduction of hate
Forgiveness is not far from that

Stand tall, fear nothing, keep the faith
I'll walk with my head clean from this
That's the way to reduction of hate
Forgiveness is not far from that
