

Sanctions

Raised Fist

Can you feel it in the atmosphere?
Another bad year,
when superpowers interfere
and media declare that war is near.
It's coming back like a ghost.
Warships near the coast.
All about natural resources our westerners need the most.

Military power and insanity.
The government is a travesty.

Another strange sick dictatorship, but it's cheap.
Kids working 24 hours every day of the week.
It won't disturb your sleep.
What about the counterpart?
I don't even know where to start.
Losing my breath.
We could not even act on tyrants gassing children to death.

What makes us act so dozed?
Resources our westerners need the most.
What are the sanctions about?
They're shutting down your netflix account?

How can we just digest tyrants gassing children to death?
