Some Of These Times

As I walk through memories And at the end of these I've burned a lot of pain to see you within Deep powdered my skin and it's (burning)

And I wanna break through to you Try to speak to you (and I) And I seem to get to what's right But you're not listening right

When you went through my head Turned it upside down Fuck you, sick of you all the time (I'm sick of you all the time...)

And some of your shit, reaches my evil side And I can't deny, some of these times I wish you would die

Listen up, All the time, Suck it up You just cannot see it (Sick of you all the time) Listen up, All the time, Suck it up You just cannot see it

Why can't you learn to read the sign Read between the lines Closer to what I want to say And now I totally feel

Instead I have to put all this in rhymes
Some I seriously am gonna buy
Does it make you feel fine
(No resisting)

When you went through my head Turned it upside down Fuck you, sick of you all the time

And some of your shit, reaches my evil side And I can't deny, some of these times I wish you would die

Listen up, All the time, Suck it up You just cannot see it (Sick of you all the time) Listen up, All the time, Suck it up You just cannot see it (I'm sick of you all the time) Listen up, All the time, Suck it up You just cannot see it Listen up, All the time, Suck it up You just can't believe it (I'm sick of you all the time)

Went through my head Turned it upside down **Raised Fist**

Fuck you, sick of you all the time

Some of your shit, reaches my evil side Some of these times I wish you would die

Listen up, All the time, Suck it up You just cannot see it (Sick of you all the time) Listen up, Suck it up, Listen Up You just cannot see it (I'm sick of you all the time) Listen up, All the time, Suck it up You just cannot see it Listen up, All the time, Suck it up You just can't believe it (I'm sick of you all the time)
