

## To Make Up My Mind

**Raised Fist**

I'm needing this time to  
make up my mind every  
time when we're lonely  
together I think of the  
options I've got you  
have disturbed me for a  
long time right now how  
much is it for me to take  
chourus: listen I really got  
to finda way to make up  
my mind don't play with  
me like I'm just in your  
way I'm so sick and tired  
of this now you are out  
and there is nowhere to  
go so take your  
goddamned kiss you put  
me up in the dirt you  
never thought that I got  
up by just a grab in your  
skirt and this is my way  
to say with no delay I'm  
never going your way  
chorus:
