

## We Are Here

### Raised Fist

A cold wind is sweeping by, orchestrated by  
Organized crime, both sides polarized  
Representatives of a state so full of hate with associates  
Wait a minute, I think I saw the same great primates, operate back in  
'98

Hey! We're here  
Let's make it loud and clear  
Ready to interfere  
We're singing for the ones full of fear  
Hey! We're here  
Let's make it loud and clear  
Ready to interfere  
We're singing for the ones full of fear

These winds always carry victims of war  
This tidal wave is flushing up dead children on the seashores  
Nothing new, we've already seen the whole kit  
On dedication I presented it, the message beneath contempt in it

And 20 years later we are back in it

Hey! We're here  
Let's make it loud and clear  
Ready to interfere  
We're singing for the ones full of fear  
Hey! We're here  
Let's make it loud and clear  
Ready to interfere  
We're singing for the ones  
For the ones full of fear

Hey!  
Ready to interfere  
We're singing for the ones full of fear  
Hey!  
Ready to interfere  
We're singing for the ones  
For the ones full of fear

Hey! We're here  
Let's make it loud and clear  
Ready to interfere  
We're singing for the ones full of fear  
Hey! We're here  
Let's make it loud and clear
