

We Are Here

Raised Fist

A cold wind is sweeping by, orchestrated by
Organized crime, both sides polarized
Representatives of a state so full of hate with associates
Wait a minute, I think I saw the same great primates, operate back in
'98

Hey! We're here
Let's make it loud and clear
Ready to interfere
We're singing for the ones full of fear
Hey! We're here
Let's make it loud and clear
Ready to interfere
We're singing for the ones full of fear

These winds always carry victims of war
This tidal wave is flushing up dead children on the seashores
Nothing new, we've already seen the whole kit
On dedication I presented it, the message beneath contempt in it

And 20 years later we are back in it

Hey! We're here
Let's make it loud and clear
Ready to interfere
We're singing for the ones full of fear
Hey! We're here
Let's make it loud and clear
Ready to interfere
We're singing for the ones
For the ones full of fear

Hey!
Ready to interfere
We're singing for the ones full of fear
Hey!
Ready to interfere
We're singing for the ones
For the ones full of fear

Hey! We're here
Let's make it loud and clear
Ready to interfere
We're singing for the ones full of fear
Hey! We're here
Let's make it loud and clear
