

Cure for Love

Bonnie Raitt

You bring me roses
You give me kisses
You bring me moons and stars
That shine so high up in the sky
My heart is beating wild and crazy

Hope that I can find
A cure for this love
Could be you want me
Could be you care
Could be the words you say,
Are things I just want to hear

You me nervous, got me shaking
Maybe I can find
A cure for this love
La la la la

Doctor, doctor
Give me healing, so I can stop this feeling
It's getting so much stronger
And I just can't go on much longer

Doctor please
Find me a way out of love
When the phone rings
And no one answers

The letters comeback saying
"Lover cannot be found"
Don't go looking, don't bother searching
You see it's 'cause your baby
Found herself a cure for love
La la la la
