Cure for Love

Bonnie Raitt

You bring me roses You give me kisses You bring me moons and stars That shine so high up in the sky My heart is beating wild and crazy

Hope that I can find A cure for this love Could be you want me Could be you care Could be the words you say, Are things I just want to hear

You me nervous, got me shaking Maybe I can find A cure for this love La la la la

Doctor, doctor Give me healing, so I can stop this feeling It's getting so much stronger And I just can't go on much longer

Doctor please Find me a way out of love When the phone rings And no one answers

The letters comeback saying "Lover cannot be found" Don't go looking, don't bother searching You see it's 'cause your baby Found herself a cure for love La la la la
