

Gods

Raja Kumari

Don't listen to the bullshit they say
They don't understand
They're just a regular motherfucking motherfucking man

We are gods
We are gods
No one can tell us no
We do just what we want
Walk like a god
Talk like a god
And if we ever fall
We rise up like the sun
Cuz we are gods
Yah we are gods
No mortal man
Can ever tell me who I am
Cuz I'm a god
A fucking god
I get my energy and power from above
Cuz we are gods

Live in the moment
You gotta prove
You want it
Everything the light
Touches is our empire
So you better own it
Don't stop the dream when you're dreaming
Gotta keep the faith, never let up keep going
In the streets, move you feet to the rhythm
Can't stop a braveheart when it's beating

Live without fear and I'm here and I'm with it
Lemme make it clear Imma get Imma get it
Never look around for that brown
Now im inside
Now I wear the crown for my town
And I can't hide
I get it it, I get it get it then it's gone
You get it get it
You tell me that im the one
If I get get
I'm running till it's done
Can't stop
Can't stop

'Cause we are gods
Yeah, we are gods
No one can tell us no
We do just what we want
Walk like a god
Talk like a god
I get my energy and power from above

I make the world my vision board
Like I dream and I make it do it
No one can stop me

Demons tried me, been to hell
But I made it thru it
I got the seed
I got the power
I got a feeling
It's about to shower
All your blessings are right on time
Don't forgot that you're divine
Blue lotus will take you high
Kundalini, just watch it rise
Is it in the cards
On the cross
Or in your mind
Everybody lost in the sauce
Check your eye sight

God particle
God head
Gods sees
You one of us
You know what I mean
Just breathe the prana
In synch with the rhythm
God is everywhere
God is a feeling

Oh lord oh lord
The light is all we need
And all we want
Oh lord oh I oh lord
Just walk with me

No negativity no toxicity around me
'Cause I keep it pure
I keep the energy
Flowing like the Ganga
Gotta keep growing
Can't stop the energy
Gotta keep flowing

Flip the freestyle
And make my way
Bless the topline
And drop that bass
Put in work
Cuz this art is freedom
Liberate myself
And my people stay eating

Keep the Bible by the Gita
God speaks thru the word
Better read up
Miracles everyday
Every season
Fuck around and make you all some believers

One mic
One mic
One life
Yah, only live it one time
My time
Your time
Our time

'Cause we are gods
We are gods
No one can tell us no
We do just what we want
Walk like a god
Talk like a god
And if we ever fall
We rise up like the sun

Cuz we are gods
Yah we are gods
No mortal man
Can ever tell me who I am
Cuz I'm a god
A fucking god
I get my energy and power from above
Cuz we are gods
