

Hello World

Raja Kumari

Step up
Life'll wear you down
But you know
It makes you tough
You got all you need

Hold on
You can move a mountain
With just a little shove
Time to set you free

When you're working
Just to work
When you're breathing'
Just to breathe no
Don't
Lose
The light
In your dreams

We can dance
Til we fall
We just gonna move on
Through the dirt and the hurt
So we learn to be strong
Set a fire
In your soul
Let it burn
Let it burn
Keep rising up
Enough's enough
Say
Hello world

Some nights
Wide awake and dreaming
Until you see the light
It's a brand new day

Now is the greatest unknown
Where all of your patterns are sewn
You stitch it together
You'll make it
Whatever you want

When you're workin
Just to work
When you're brea
Thing'
Just to breathe no
Don't
Lose
The light
In your dreams

We can dance
Til we fall

We just gonna move on
Through the dirt and the hurt
So we learn to be strong
Set a fire
In your soul
Let it burn
Let it burn
Keep rising up
Enough's enough
Say
Hello world

This is my world
Yeah its my time
Manifested all in my mind
Like an eagle
Flying higher
Nothing bringing me down, yeah

In the daylight
Through the night time
I'm the star now
This is my shine
Like a lion
Running faster
Nothing stopping me now, yeah

Nothing gonna break me down
I'm unstappable
I'm gonna rise to the peak
To the top you know
You can't make me fall
I won't let it go
I'm gonna talk like a boss
A professional
You can't mess with me, huh!
This is my world, this is my world
My energy, huh
This is my world, this is my world

We can dance
Til we fall
We just gonna move on
Through the dirt and the hurt
So we learn to be strong
Set a fire
In your soul
Let it burn
Let it burn
Keep rising up
Enough's enough
Say
Hello world
