

Another Lover

Rak-Su

Baby I don't ever want another lover
Never want another body under covers
The way you're looking at me girl it made my day,
Makes me wanna touch you in a million ways
I just pulled you closer to say

Baby I don't ever want another lover
Never want another body under covers
The way you're looking at me girl it made my day,
Makes me wanna touch you in a million ways
I just pulled you closer to say

Don e with all the part time girls,
I'm out the game I turned my badges in
All the images gone, I'm done imagining
You're the whole package, I can tell from your packaging
Been preaching it so long I think its time we get to practicing
Could talk about the things I'm gonna do to ya
But that's easy, let me memorise ya mind while I keep it PG
Believe me, ain't body hot as you,
Let's make two become one
Just like the spice girls do

I could never want nobody else
I could never want nobody else
I could never want nobody else
I could never want nobody else
I could never want nobody else
I could never want nobody else
I could never want nobody else
I could never want nobody else

Baby I don't ever want another lover
Never want another body under covers
The way you're looking at me girl it made my day,
Makes me wanna touch you in a million ways
I just pulled you closer to say

Baby I don't ever want another lover
Never want another body under covers
The way you're looking at me girl it made my day,
Makes me wanna touch you in a million ways
I just pulled you closer to say

I could never want another
Girl you hotter than Uganda in the summer
You're looking at me like you wanna be a mother
When I lay the pipe down you'll be calling me a plumber
Woah
Tryna give your body quick lash
Tryna make you flutter, not an eyelash
Tryna take a dive make a splash
Baby did I stutter who you talking to?
It's big Ash

I could never want nobody else
I could never want nobody else

I could never want nobody else
I could never want nobody else
I could never want nobody else
I could never want nobody else
I could never want nobody else
I could never want nobody else

Baby I don't ever want another lover
Never want another body under covers
The way you're looking at me girl it made my day,
Makes me wanna touch you in a million ways
I just pulled you closer to say

Baby I don't ever want another lover
Never want another body under covers
The way you're looking at me girl it made my day,
Makes me wanna touch you in a million ways
I just pulled you closer to say

"Another Lover is an afrobeats song influenced by the recent wave of amapiano and the infectious log drums. The Chorus is reminiscent of the feeling new jack swing and early 90's RnB offered. Brilliant vocals, High Energy, and super sincere accompanied by stacks of harmonies and adlibs. It's a song that will make anyone want to sing passionately and feel good."
